

Penn Medicine  
Chester County Hospital

## Our Community Impact \$8,919,154

Fundraising Total in Fiscal Year 2023  
through the generosity of 2,291 community donors

The amount of support from our community of donors is remarkable. Donor support to Chester County Hospital stays in Chester County and has a direct impact on the lives of patients, right here in our community. Philanthropy allows us to strategically plan and advance the level of care we provide.

**Your gifts are what make the difference!**

**DID YOU KNOW?** Many advancements and services at CCH are only possible because of philanthropy.

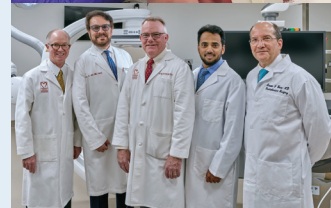

Over **\$7 million in donations** were designated to specific hospital departments for technological advancements and essential patient services. **You can donate directly to the department that is most meaningful to you or to the greatest needs of the hospital.**

Donor support helps fund vital programs for patients of **The Abramson Cancer Center at CCH** – including transportation to treatments, oncology research, support services, Cancer Care Nurse Navigators, and more.

Donor funds support ever-evolving advances in our **Level III NICU** - therapeutic hypothermia treatment for infants born with hypoxic ischemic encephalopathy (HIE), state-of-the-art GE Giraffe Omnibed care stations, and AngelEye video technology – connecting parents to their newborns.

Gifts to our **Heart and Vascular Department** help support advanced technology for AFib and electrophysiology procedures, new MRI with enhanced cardiovascular imaging, as well as support our Nurse Navigators to guide patients through every step of their care plan.

Philanthropy helps fund specialized equipment for advanced and minimally invasive surgical procedures in our **Orthopaedics Department** – most recently for direct anterior hip replacement and complex fracture procedures.
